VEHICLE TESTED

Land Rover Discovery Sport

P300e PHEV · 2022 · Plug-in hybrid (PHEV)

SN72 XNB

Vehicle Record

ODOMETER READING	47,741 miles
VIN (LAST 4 DIGITS)	4809
ORIGINAL BATTERY (TOTAL)	15.0 kWh
ORIGINAL BATTERY (USABLE)	12.2 kWh
VEHICLE TYPE	PHEV

Test Record

REPORT ID	SN79Q8PBTE
EXECUTED BY	Manamanx
TEST COMPLETED	29.10.2026 · 17:19
ISSUED ON	29.10.2026

Battery Build & Longevity

BASED ON KEY BATTERY ATTRIBUTES

• GOOD

Reliability & Ongoing Support

BASED ON VEHICLE MAINTENANCE METRICS

• GOOD

* Derived from data collected directly from the vehicle's on-board systems.

Charging Figures (10-80% CHARGE)

TYPE	TYPICAL LOCATION	TIME TO CHARGE	AVERAGE COST
Slow	Home 7.4 kW · night	1 h 16 min	£1
Slow	Home 7.4 kW · day	1 h 16 min	£2
Fast	Supermarket	1 h 16 min	£5
Fastest	Motorway	18 min	£7

Average time and cost to charge from 10% to 80% at the time of print. Maximum DC charging rate **40 kW**.
Charging above 80% is best kept for longer trips to preserve battery condition. Night tariffs give the biggest savings at home.

Charging Compatibility & Port Location

CHARGING	CONNECTOR	UK PUBLIC CHARGERS
AC SLOW AND FAST	Type 2	90,172
DC RAPID	CCS	24,150

MAXIMUM DC CHARGING RATE
40 kW

PORT LOCATION
Rear Left Side

DC charging relates to rapid charging at locations such as motorway services and petrol stations. To view all public chargers in the UK, head to zapmap.com.

Further Vehicle Data

5 CHECKS

CHECK	RESULT	DETAIL
Air Quality	CAZ ULEZ	This vehicle will need to pay to enter Ultra Low Emission Zones (ULEZ) and Clean Air Zones (CAZ).
London Congestion Charge	£18/DAY	This vehicle is not exempt from the London Congestion Charge and pays the standard £18 daily charge.
Vehicle Classification	ULEV	This vehicle is a plug-in hybrid vehicle (PHEV). It is classed as an Ultra Low Emission Vehicle (ULEV).
Road Tax / VED	£640/YR	This car pays the expensive car supplement, which is included in the £640 above. It applies for 5 years, starting when the car is taxed for the second time, so the time remaining depends on its tax history. The standard rate applies once it ends.
Original Vehicle Warranty 3 YEARS	● WARRANTY EXPIRED	The original **vehicle** warranty is 3 years. This warranty has now expired due to the age of the vehicle.

Notes & Methodology

1 ClearWatt Battery Scorecard

A battery is complex, and a single percentage rarely tells the whole story. Two cars showing the same number can be in quite different health. The Scorecard weighs readings taken directly from the vehicle, such as cell voltages and charging history, with wider checks like software version and recall status, to build one consistent assessment.

Battery & Vehicle Warranties

Battery capacity cover applies to loss below the manufacturer's stated threshold and is separate from cover for battery faults or failure. Vehicle warranties typically cover the motor, drivetrain, electronics and control systems. Status is shown against the original stated terms. The manufacturer may require more information to validate a claim.
