

**NOTICE** - All the information and photos shown herein are to be considered as merely indicative and do not constitute contractual specifications. Trigano S.p.A. reserves the right to make the technical and configuration changes considered appropriate to its vehicles and to change the equipment the vehicles are provided with at any time and with no official notice. Owing to the above, all the information concerning the specifications and equipment of every motorhome must be requested before purchase from the dealer, who, acting as sole point of reference, will confirm or rectify the data published herein, updating the customer on the actual features and equipment of the vehicle he/she is interested in and for which negotiations are ongoing. Trigano S.p.A. declines any liability concerning changes, including additions, and/or conversions made after the printing of this document and/or delivery of the vehicle. Weights and dimensions are subject to change due to the fact that the vehicles are manufactured using natural materials, therefore performance and dimensions can vary in factory manufacturing with a tolerance of +/- 5%. Important note: The optional items fitted are not included in the definition of the vehicle empty weight. Their weight must therefore be included in the useful load. All users must adjust the load and number of passengers carried to the vehicle carrying capacity minus the weight of complementary equipment installed. For user safety, you are in any case recommended not to exceed the technically permissible maximum weight stated by the manufacturer. Fitting, removing or alterations carried out c/o unauthorised workshops may compromise your safety and at the same time lead to invalidation of the warranty.

**PRIVATE EXPORTING OF VEHICLES** - Roller Team Motorhomes are designed and manufactured to operate in a specific country or region and therefore it is imperative that when purchasing a new vehicle, the buyer should be completely aware of the design and operating parameters of the product. Vehicles purchased in the UK are not only built to the necessary European Directives and Standards (e.g. ECWVTA – Type approval), but also are equipped with components that are designed to operate in a typical European temperate climate. Should a customer choose to export a registered vehicle from the UK, or purchase a vehicle from a nonaligned dealership outside the UK, it is their responsibility to ensure that any required modifications have been completed to the correct standard, and that the vehicle complies with all legislation of the country in which the vehicle is to be registered. Any equipment that is operated in a country that it is not designed for will either not perform correctly and could possibly fail. This equipment may also not be covered by the appliance manufacturer's warranty. Similarly, Roller Team Motorhomes vehicles are designed to be used on normal tarmac roads, with occasional off road campsite use. Should a vehicle be used outside of these conditions, the vehicle could suffer undue load, stress and ingress of debris and therefore Roller Team Motorhomes will not be held liable for any such failure and as a result any applicable warranty will be void.

Trigano S.p.A. operates with an Integrated Quality, Environment and Safety Management System by the new certification body TÜV

# Roller Team

The 2017 Roller Team vehicles are the result of extensive technological research and development, which has led to the manufacture of functional, high quality and reliable motorhomes. We are proud of our stylish interiors which convey our Italian heritage and our choice of materials which provide a lightweight yet durable construction. With favourable prices and innovative solutions, there is a wide range of options and layouts available this year to meet any holidaying requirements.

A motorhome is one of the most important purchase you can make. Aware of this, Roller Team offers reliability, safety and sturdiness - vehicles capable of withstanding time and all type of weather conditions, which are compliant to all international standards and which undergo quality controls and safety checks at each and every manufacturing stage and before delivery. Tests include: Gas system testing, electronic weighing, waterproof testing, aerodynamic wind tunnel testing and cold weather tests. In addition to this, Roller Team are the only Italian company to hold UNI EN ISO 9001 for Quality and UNI EN ISO 14001 for the Environment certification in the motorhome sector.

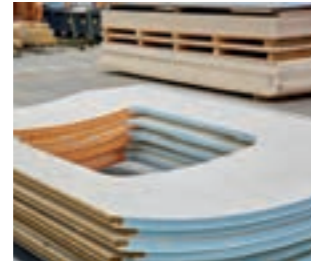

**ROLLER TEAM**  
We are a young and dynamic brand that has quickly made a name for itself throughout Europe, becoming market leaders in many European countries. We pride ourselves on pioneering new and innovative solutions at competitive prices, making the modern motorhome accessible to everyone. A technologically advanced product with a strong personality, Roller Team vehicles have proven to maintain their reliability and their value over time.

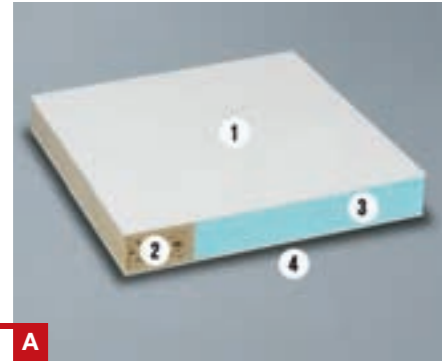

Fiberglass hail damage resistant roof.  
 Roof thickness with Styrofoam® for greater insulation and protection.  
 Extruded plastic inserts in areas in contact with the outside. Wood free.

- 1 Anti hail fiberglass
- 2 Extruded plastic
- 3 Styrofoam®
- 4 Fiberglass

**Roof**

**Floor**

Floor in Styrofoam® with lower and upper fiberglass covering for enhanced protection, thermal insulation and resistance. Floor thickness 54 mm, utmost resistance to potential damage.

- 1 Styrofoam®
- 2 Lower and upper fiberglass covering
- 3 Internal ceiling in pvc
- 4 Perimetral protection in extruded plastic

# Insulation

## Exps Evo

# Protection in Evolution

Our Extreme Protection System allows us to offer a comprehensive 5 year warranty for base vehicle and conversion and a 10 year body integrity warranty for total piece of mind.

**Extreme Protection System**  
 The latest technology for manufacturing motorhomes and the fruit of continuous Roller Team research, EVO TECNOLOGY is the new technology that is applied to side walls, roof and floor, guarantees the highest protection for your motorhome.

- Greater thermal and acoustic insulation
- Greater protection from the elements
- Greater structural resistance
- Total protection of the underfloor from all the elements
- Ultimate resistance

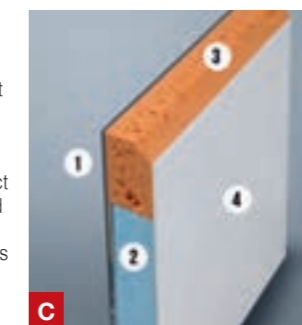

**Side-walls**

Exterior side-walls in fiberglass. No contact between exterior and interior. High density extruded plastic: it prevents any contact of the inner part of the walls with the water. Styrofoam® in all walls: better soundproofing and thermal insulation of the vehicle. Fiberglass inside: it prevent any contact of the inner part with weathering. Wood free.

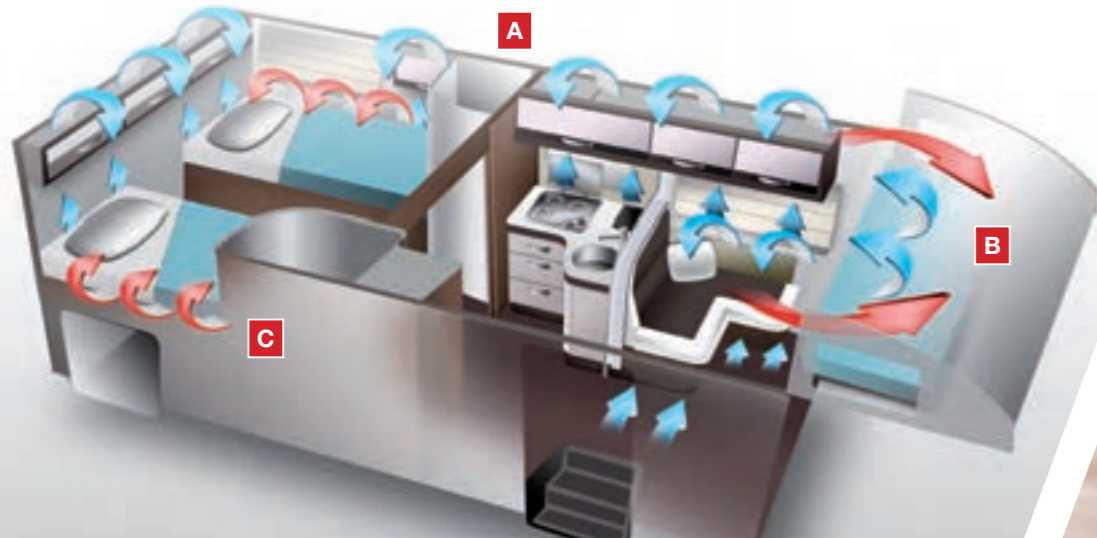

- 1 Anti-hail fiberglass on exterior walls
- 2 Styrofoam®
- 3 High density extruded plastic
- 4 Fiberglass inside

# Breathe

## Made to breathe

The "Breathe" project promotes the study of air distribution inside a motorhome improving circulation, stabilising the temperature and in turn avoiding formation of condensation.

**A** Permanent ventilation inside all wall units

**B** Heating in the overcab area

**C** Perimeter heating in all models with rear twin beds and garage bed.

The wooden panels are positioned in the dinette at a small distance from the interior side panel. All fixed beds in the rear part or overcab are fitted with staves. Mattresses of the rear beds are a polyester fabric, quilted top and sides, with breathable technical fabric in the bottom part.

Roller Team continue to working tirelessly to add even more design developments and specification to their range for 2017. Next season, the most exciting enhancement is the introduction of UK entrance doors to both the Zefiro and the T-Line ranges, which follows this addition to the Auto-Roller range in 2016. Fitted as standard to all 2017 models is a colour reversing camera with monitor, a 95 amp Auxiliary battery, 120 watt Solar panel, Bike rack (for 4 bikes) and a fitted fly screen to the entrance door. It doesn't stop there...don't forget the high specification

already included, special safety features like ESC (Electronic Stability Control) and Traction+ on all Fiat Auto-Roller and T-Line models which also includes "hill hold" and "hill assist". Wider rear track to all ranges, special "camping tyres", electric windows, ABS, cruise control and daytime running lights (DRL's). Again, both Ford and Fiat chassis are being utilised for 2017, more electric drop down beds are on offer, brand new upholstery schemes and an industry leading brand new 5 year warranty for both conversion and chassis (T&C applies).

# 2017 – A season for

## even more added value

Why not choose our "Drivers pack" at an amazing £ 999 it is available on all models and adds some amazing specification, Cab air conditioning, cruise control with speed limiter, radio with steering wheel controls and blue tooth connectivity, radio antenna in rear view mirror, passenger airbag and electrically operated and heated mirrors.

# Zefiro

Refined, understated and unbelievable value for money. UK entrance door!

**4** Modern en-suite facilities offering electric 12v flush toilets with pull out cassette, basin and separate shower cubicles.

An ideal range to explore the world of the great outdoors, to enjoy both long holidays or short breaks, whether it is a family or a couple looking for comfort and convenience. Perfectly proportioned motorhomes, attractive designs with both low-profile and overcab models and a choice of engine options. Permanent double beds, bunk beds and dinette / double beds are all available throughout this range. All models feature large washrooms with separate step-in showers with solid doors.

**5** Standard fitment for 2017:  
 - colour reversing camera with monitor,  
 - 95 amp Auxiliary battery,  
 - 120 watt Solar panel,  
 - Bike rack (4 type),  
 - fitted fly screen to the entrance door.

# Auto-Roller 694

Based on the Fiat Ducato chassis and supplied with a 2,3 litre 130hp manual as standard (engine upgrades including comfort-matic transmission available). The 694 model has a spacious rear corner bed, modern corner washroom, practical kitchen with 150 L fridge and separate freezer. The front lounge provides a spacious L shaped seating to one side which incorporates 2 belted travelling seats to carry passengers in safety, providing a spacious and inviting front lounge. This compact, Lo-Line but spacious motorhome is perfect for 2 or 4 to travel in comfort.

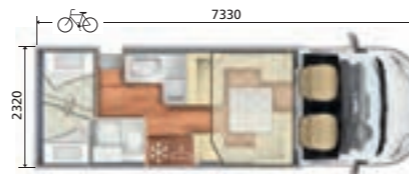

# Auto-Roller 707

Based on the Fiat Ducato chassis and supplied with a 2,3 MJ 35, 130 hp, manual chassis as standard (engine upgrades comfort-matic transmission are cost options). The Lo-Line Auto-Roller 707 has a unique “double L shaped” dinette lounge, twin rear bunks, the bottom bunk can be stowed away to create a large storage area accessible from the outside, ideal for bicycles or larger items. There is also a fantastic electric drop down double bed behind the cab, above the L shaped dinettes which together offer sleeping for up to 7 people. This model is an ideal family vehicle and at 3650 kgs Gross vehicle weight has 7 seat belts fitted as standard.

6 (3500) / 7 (3650) 7

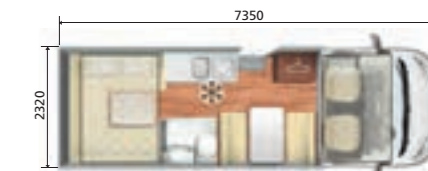

# Auto-Roller 746

Continental flair, but UK by design! Based on the Fiat Ducato 130 hp, manual chassis as standard (engine upgrades comfortomatic transmission are cost options) this model boasts a spacious 6ft rear U shaped lounge for 6. The lounge is ideal for relaxing after a busy day and can easily convert in the evenings into either two singles or a large double bed. To the centre there is a well equipped modern kitchen and wash-room with separate shower cubicle. The vehicle is completed with a double dinette to the front with 4 belted travelling seats. This area will transform in the evenings into

a double bed. Above the cab you will find a large double bed with large roof light to the front of the Luton, which provides invaluable natural light into the vehicle during the day. A true UK layout offering spaciousness, comfort, practicality and value for money.

5 (3500) / 6 (3650) 6

# Auto-Roller 747

The Lo-line 747 again is offered on the market leading Fiat Ducato with a 130 bhp manual engine as standard (engine upgrades and comfort-matic transmission are cost options). The best of all worlds are offered in this model with a UK friendly rear U shaped lounge, central en-suite opposite a large wardrobe and well equipped kitchen area leading to the front where a full double dinette offering 4 seat belts so 6 can travel in total safety. Opposite the dinette is a side facing settee which opens up the front lounge area for "split" dining front and rear if needed. To the rear of the cab area is a large electric drop down double bed. This full size bed electrically operates with ease and houses a double mattress made of polyester "breathable" fabric, quilted top and sides. This truly is a fantastic layout for up to 6 people offering space, comfort, innovative ideas and standard specification including colour reversing camera, solar panel, bike rack (4 type) and fly screen to the entrance door.

6

# T-Line

Take your journey further: 3 models incorporating an electric drop down bed. UK entrance door!

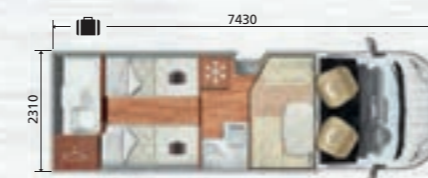

**T-Line 590**

**T-Line 740**

**T-Line 785**

The specifications contained herein may refer to only certain models of the range.

**1** Well appointed "L" shaped kitchens with sink, 3 burner hob with glass folding cover. LED lighting under worktops and in kitchen area, full drawers and storage cupboards with cutlery tray, soft close and positive catches. Large 140 litre "slim" fridge freezer fitted as standard.

**2** Twin singles and central island beds available in the T Line range. All Lo-profile with electric drop down bed which can be held in any position. "L" shaped lounge areas easily convert to additional sleeping if required.

**3** L shaped dinettes offering comfortable seating, storage pockets and USB port conveniently positioned. Large dinette table, fully adjustable, it can be folded and moved easily.

**4** Modern en-suite facilities offering electric 12v flush toilets with pull out cassette, basin and separate shower cubicles.

**5** Standard fitment for 2017:  
 - colour reversing camera with monitor,  
 - 95 amp Auxiliary battery,  
 - 120 watt Solar panel,  
 - Bike rack (4 type),  
 - fitted fly screen to the entrance door.

Discover a new way of experiencing your leisure time without forsaking anything essential with T-Line, the vehicle which in terms of practicality and functionality represents the best choice for enjoying the world of the great outdoors. Welcoming settings and warm atmospheres, practical design and attention to detail. All models are available at fantastic prices, one version with a garage, one model with rear island bed and one compact model measuring only 5.9 m.

# T-Line 590

Based on the Fiat Ducato 35, 130hp, manual as standard (engine upgrades including comfort-matic transmission are cost options). The T-Line 590 is a very compact model with dimension under 6 metres. The model offers 4 seat belts as standard and it is the ideal vehicle for a couple who enjoy travelling with the maximum comfort thanks to the spacious lounge, the practical L shaped Kitchen with a good working top and a large 150L fridge freezer, a spacious washroom

with wardrobe accessible even from the outside and a good storage capacity. Sleeping is here at the maximum comfort: the electrical elevating bed can be positioned at any height and it stops just above the seating area.

# T-Line 740

The T-Line 740 model offers a new solution of rear central bed with big dimensions, giving maximum comfort and living space. A flexible layout with day and night separation thanks to the sliding doors of the bedroom and toilette. Comfort is assured by a L shaped dinette, and a practical L-shaped kitchen with 150 litre fridge freezer, a 3 burner hob and full oven/grill with valuable storage to suit. Again, like all T- Lines - sleeping is offered by the electrical elevating bed that can be positioned at any height. Based on the Fiat Ducato, 130HP, manual as standard (engine upgrades including comfort-matic transmission are cost options).

# T-Line 785

Based on the Fiat Ducato, 130hp, manual as standard (engine upgrades including comfort-matic transmission are cost options). The T-Line 785 is a revised layout for 2016, this model offers twin longitudinal rear single beds with the possibility of joining them to form a double bed. Storage is complimented by wardrobes under the beds and steps. Comfort is assured by an L shaped dinette. A rear ensuite, toilette and separate shower area with rigid door, and a practical kitchen with a 3 burner hob. This is the ideal model for a couple who like travelling with grandchildren. Electric drop down bed above the L shaped lounge comes as standard.

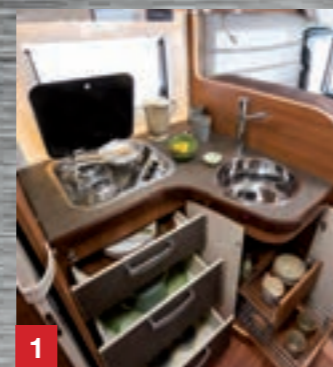

# Pegaso

Experience A-class never before

**Pegaso 740**

The specifications contained herein may refer to only certain models of the range.

**1** Three-burner cooker and glass cover.  
Suction hood.  
Methacrylate wall with LED lights, for easy cleaning.  
Full drawers with cutlery tray.  
Sink cover.  
Large self-closing baskets with positive catches.  
Central locking for kitchen baskets.

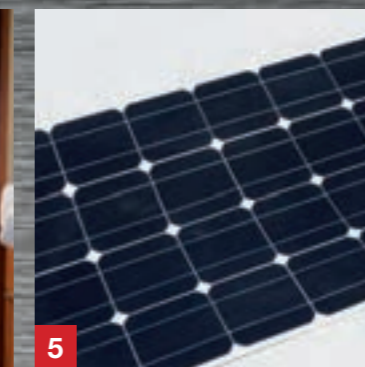

**2** Fixed rear island bed with variable height.  
Bed with slatted base.  
Elevating bed: electric mechanism.  
Dinette and kitchen always available.

**3** Living area with dinette and corner sofa in nautical style.  
Comfortable seats and with generous amount of seating space.  
Pockets and USB sockets.  
Large dinette table with LED lights.  
Table can be moved and folded.  
Large, airy windows with pleated blinds.  
Excellent external visibility for the driver and great driving comfort.  
High mirrors complete with wide-angle mirror.

**4** Shower separate from the toilet.  
Compact toilet.  
Panoramic skylight with blind and flyscreen.  
Combination heating.  
Provision for 2000 kg tow hook.  
Bike rack. (4 type)  
LED lighting throughout.

**5** Standard:  
Manual air conditioning.  
Driver and passenger airbags.  
Cruise control with speed limiter.  
Large 5" colour touch screen radio/cd player system  
Reversing camera.  
Solar panel.

Flyscreen on entrance door.  
Remi-front pleated blind.  
Swivel seats with seat covers.  
Garage for scooter.  
External LED light.  
Seitz windows.

Pegaso, a vehicle whose elegance and quality stand out from the crowd. The graceful styling of the exterior profile offers excellent all round vision for the driver making the Pegaso a pleasure to drive. The interior trim delivers the utmost comfort and the stunning design; elegant and modern at the same time, will satisfy even the most demanding motorhomer. The outstanding stowage capacity of this A-Class vehicle makes it the ideal solution for long tours abroad and a great choice for those looking for a motorhome with a high level of specification already included.

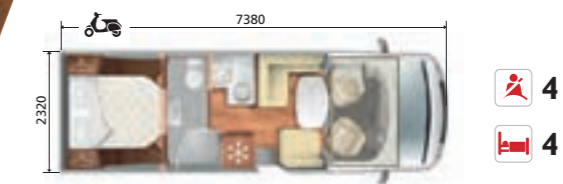

# Pegaso 740

This highly specified A-Class motorhome from Roller Team is a four berth vehicle with a luxurious rear island bed which can be adjusted in height electronically. Design features dominate this unit's interior, providing a fantastic combination of practicality and style. The Pegaso has a functional and spacious wash room, situated in the centre; moving forward a well equipped kitchen with large fridge freezer. The lounge area boasts an L-shaped dinette, offering two extra seat belts and double drop-down bed to the front cab area.

# Chassis Specification

## STANDARD SPECIFICATION

**ZEFIRO** Wider track, Spare wheel, special camping tyres, central cab locking with remote control, power windows, athermal windows, ABS, drivers AIRBAG, cruise control and speed, daytime running lights, driver and passenger's seats with fore and aft adjustment, height-adjustable driver's seat, cab seats covers. Colour reversing camera, 120 watt solar panel, Bike rack (4 type), Fly screen to entrance door, 95 amp auxiliary battery.

**AUTO-ROLLER, T-LINE, PEGASO** Wider track, Spare wheel, special camping tyres, central cab locking with remote control, power windows, athermal windows, ABS, drivers AIRBAG, cruise control, daytime running lights, driver and passenger's seats with fore and aft adjustment, height-adjustable driver's seat, cab seats covers, painted bumpers, 4 speakers in the cab, cup-holder in the cab with USB charging point and tablet holder. Colour reversing camera, 120 watt solar panel, Bike rack (4 type), Fly screen to entrance door, 95 amp auxiliary battery.

## ESC/TRACTION + (FIAT ONLY)

ESP/ESC (Electronic Stability Program®), Traction +: Vehicle stability control system, assisted uphill starting system (Hill-holder) and device in low grip conditions that shifts the weight of the vehicle where grip is better, descent holder.

## Note

\*MRO (Mass in Running Order) information: The Mass in Running Order (MRO) is the mass of the empty vehicle including a 75kg allowance for the driver, the Diesel tank full and one LPG cylinder full. The MRO is calculated with the freshwater tank filled to (20 litres) on all models and with one 13kg LPG cylinder. Should you choose to travel with additional water in your freshwater tank, or an additional LPG cylinder, then the MRO figure must be adjusted accordingly.

# Cost Optional Upgrade Packs

## DRIVERS PACK - COST OPTIONAL

Cab air conditioning, Cruise control with speed limiter function, Radio with steering wheel controls and Bluetooth connectivity, Radio aerial in rear view mirror, Passenger airbag, Electrically operated and heated mirrors.

## FIAT AND FORD ENGINE UPGRADES

Ford - 170 bhp manual engine upgrade (in lieu of standard 125bhp).

Fiat - 150 bhp manual engine upgrade (in lieu of standard 130bhp).

Fiat - Automatic gearbox, leather steering wheel and gearshift knob.

## THERMOPACK

6000 w combined heating with CP Plus Remote control, Insulation and heating for the waste tank, entrance step insulation, wheel arch insulation, active protection to the external water pipes, insulated cab curtain.

## Key

**S** Standard

**O** Optional

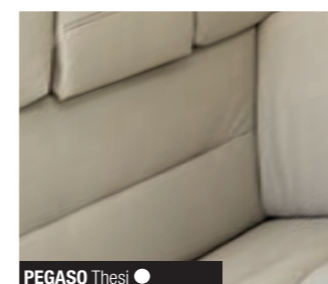

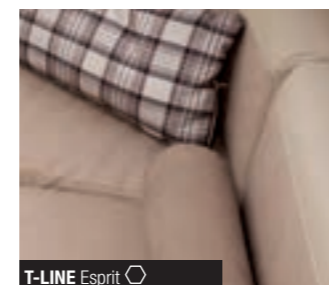

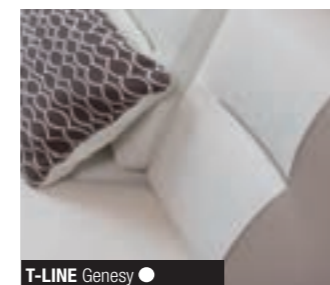

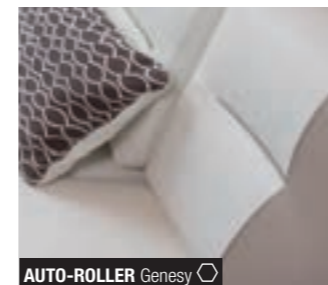

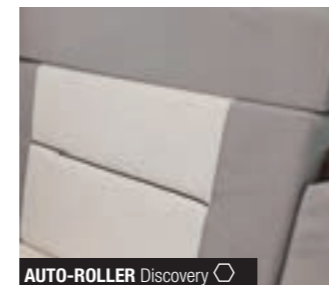

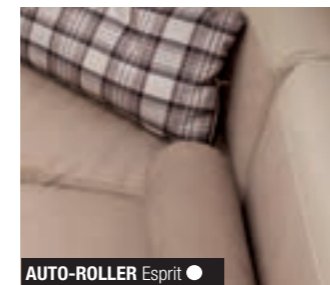

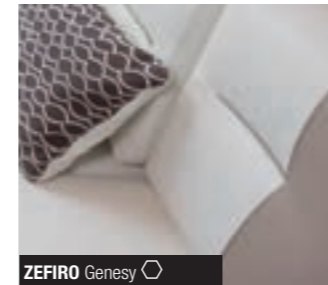

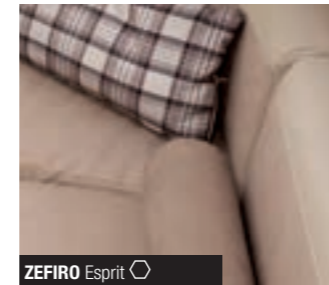

## TOLERANCES

The MRO figure quoted is representative of a number of similar specification models weighed on our fully calibrated axle weighbridge. Because of the materials and construction techniques used in the manufacture of our motorhomes, all weights quoted by us are subject to the tolerances allowed in Regulation (EU) No. 1230/2012 (+/-5%).

\*\* : Optional to be requested when ordering the vehicle.

\*\*\* : To increase the vehicle payload, when travelling it is possible to reduce the fresh water tank capacity to approx. 50 lt. The data shown are provisional and must be confirmed at the time of certification.

# Safety tests and checks

Waterproof testing is performed on every vehicle coming out of production, prior to their delivery.

Specific tests in climatic chamber during the R&D and prototyping phases in order to verify the resistance, duration and performance of the selected materials to extremely hot/cold temperatures.

Checks during the production phase: testing and verifying the operation and proper installation of electric, hydraulic and gas systems.

Electronic weighing of 100% of the vehicles prior to their delivery and written certification of the weight to the final customer.

On a certain percentage of produced vehicles, 100 checks are carried out on: appearance, function, noise and assembly. Monitoring of the production process and identification of critical assembly steps. Testing of gas systems by certified personnel, according to the German DVGW validation protocol.
