MODELS WITH DOUBLE BEDS

Double bed with lake view

**That's the beauty of camping.
You have the freedom to choose.**

You can sleep where you want and even decide how you want to sleep. What will it be for you? What should your night camp look like? Would you like to enjoy lots of space and closeness at the same time? If so, we recommend a spacious double bed. This allows you to practically take your bedroom with you on your journeys.

In many of our motorhomes, a folding double bed with a huge storage space is part of the standard equipment. We will be glad to present you the various models and advise you – we don't want the choice to cause you sleepless nights.

*A double bed in a cornfield?
Or maybe on the beach?
It's entirely up to you.*

It's a good thing days are so long

Shopping in the morning, off to the mountains at noon and somewhere else entirely in the evening.

Yes, that's how it can be if you have a motorhome that really makes anything possible. That's exactly what **the new Danny** is. A great travel companion, an oversized shopping cart, a mobile beach shelter with an open-air shower, a mobile sports centre, a ski hut on wheels and a comfortable place to catch your breath at the end of the day. There's not much time to sleep. But when there is, nothing is lacking.

Not even fresh air and sparkling stars thanks to the wonderful pop-up roof. Everything else is also quickly ready for the night. In the new Danny, the rear seat can be converted into a comfortable sofa bed in one easy step. This provides you with an additional double bed without requiring a millimetre of extra space during the day. Which is great, because it leaves more room for the lavish furnishings in the new Danny. And space for the whole family, mountain bikes, kitesurfing gear, etc.

So what could be better than a new Danny? **Two new Dannys!** So it's a good thing the motorhome is available in compact and ultra-compact models.

MODELS WITH DOUBLE BEDS

Life, here I come

Everyday life, holiday, everyday life, holiday. Time to break out of this pattern. The getaway car would be ready.

Everyone is looking forward to their holidays, but you can have just as much fun on all the other days. The new **Danny 490**, in any case, is available to anyone, no matter how bold their plan. You are welcome to make your plan while on the go since you have everything with you anyway. Kitchen, air conditioning, refrigerator, sofa bed, outdoor shower, good mood – what else is missing? Oh, the optional electrically operated pop-up roof. At the push of a button, the Danny literally grows above itself and provides a pleasant climate inside. By the way, it also creates space for two additional sleeping places under the starry sky. It's not quite as airy, but it is extremely comfortable to sleep one level down. After all, the Danny provides plenty of space. The motorhome is only 1.93 metres wide and extremely manoeuvrable thanks to its short wheelbase. You can really have fun behind the wheel in general. The powerful 1.6-litre engine provides plenty of power and extras like cruise control, whereas air conditioning and height-adjustable seats provide the right level of comfort. Exceptional for a motorhome, but that's just what the Danny is: exceptional.

Special highlights:

- ⊗ economical and powerful Euro 6 engines

No matter how long your holiday is, it's always too short. Make more of every day you have off. And every other day as well.

The new **Danny 530** is as versatile as the **Danny 490**, but it's also quite a bit longer. Mathematically, it's just 40 centimetres, but you can feel it everywhere. After all extra space means a lot of extra comfort in the **Danny 530**. And practically a whole room more. Shower in the morning under the open sky, sizzle something nice in the spacious kitchen at noon, enjoy a nice cold beer from the fridge in the evening? You can do all this in the **Danny 530**. Sleep just as well, shower in the morning, stow away a lot, manoeuvre around town and enjoy every minute along the way. And by no means only on holiday.

Kitchen, bathroom, bedroom – everything you need in the world.

Where others only dream of

Hard shell, fine core – the off-road Dexter from the inside.

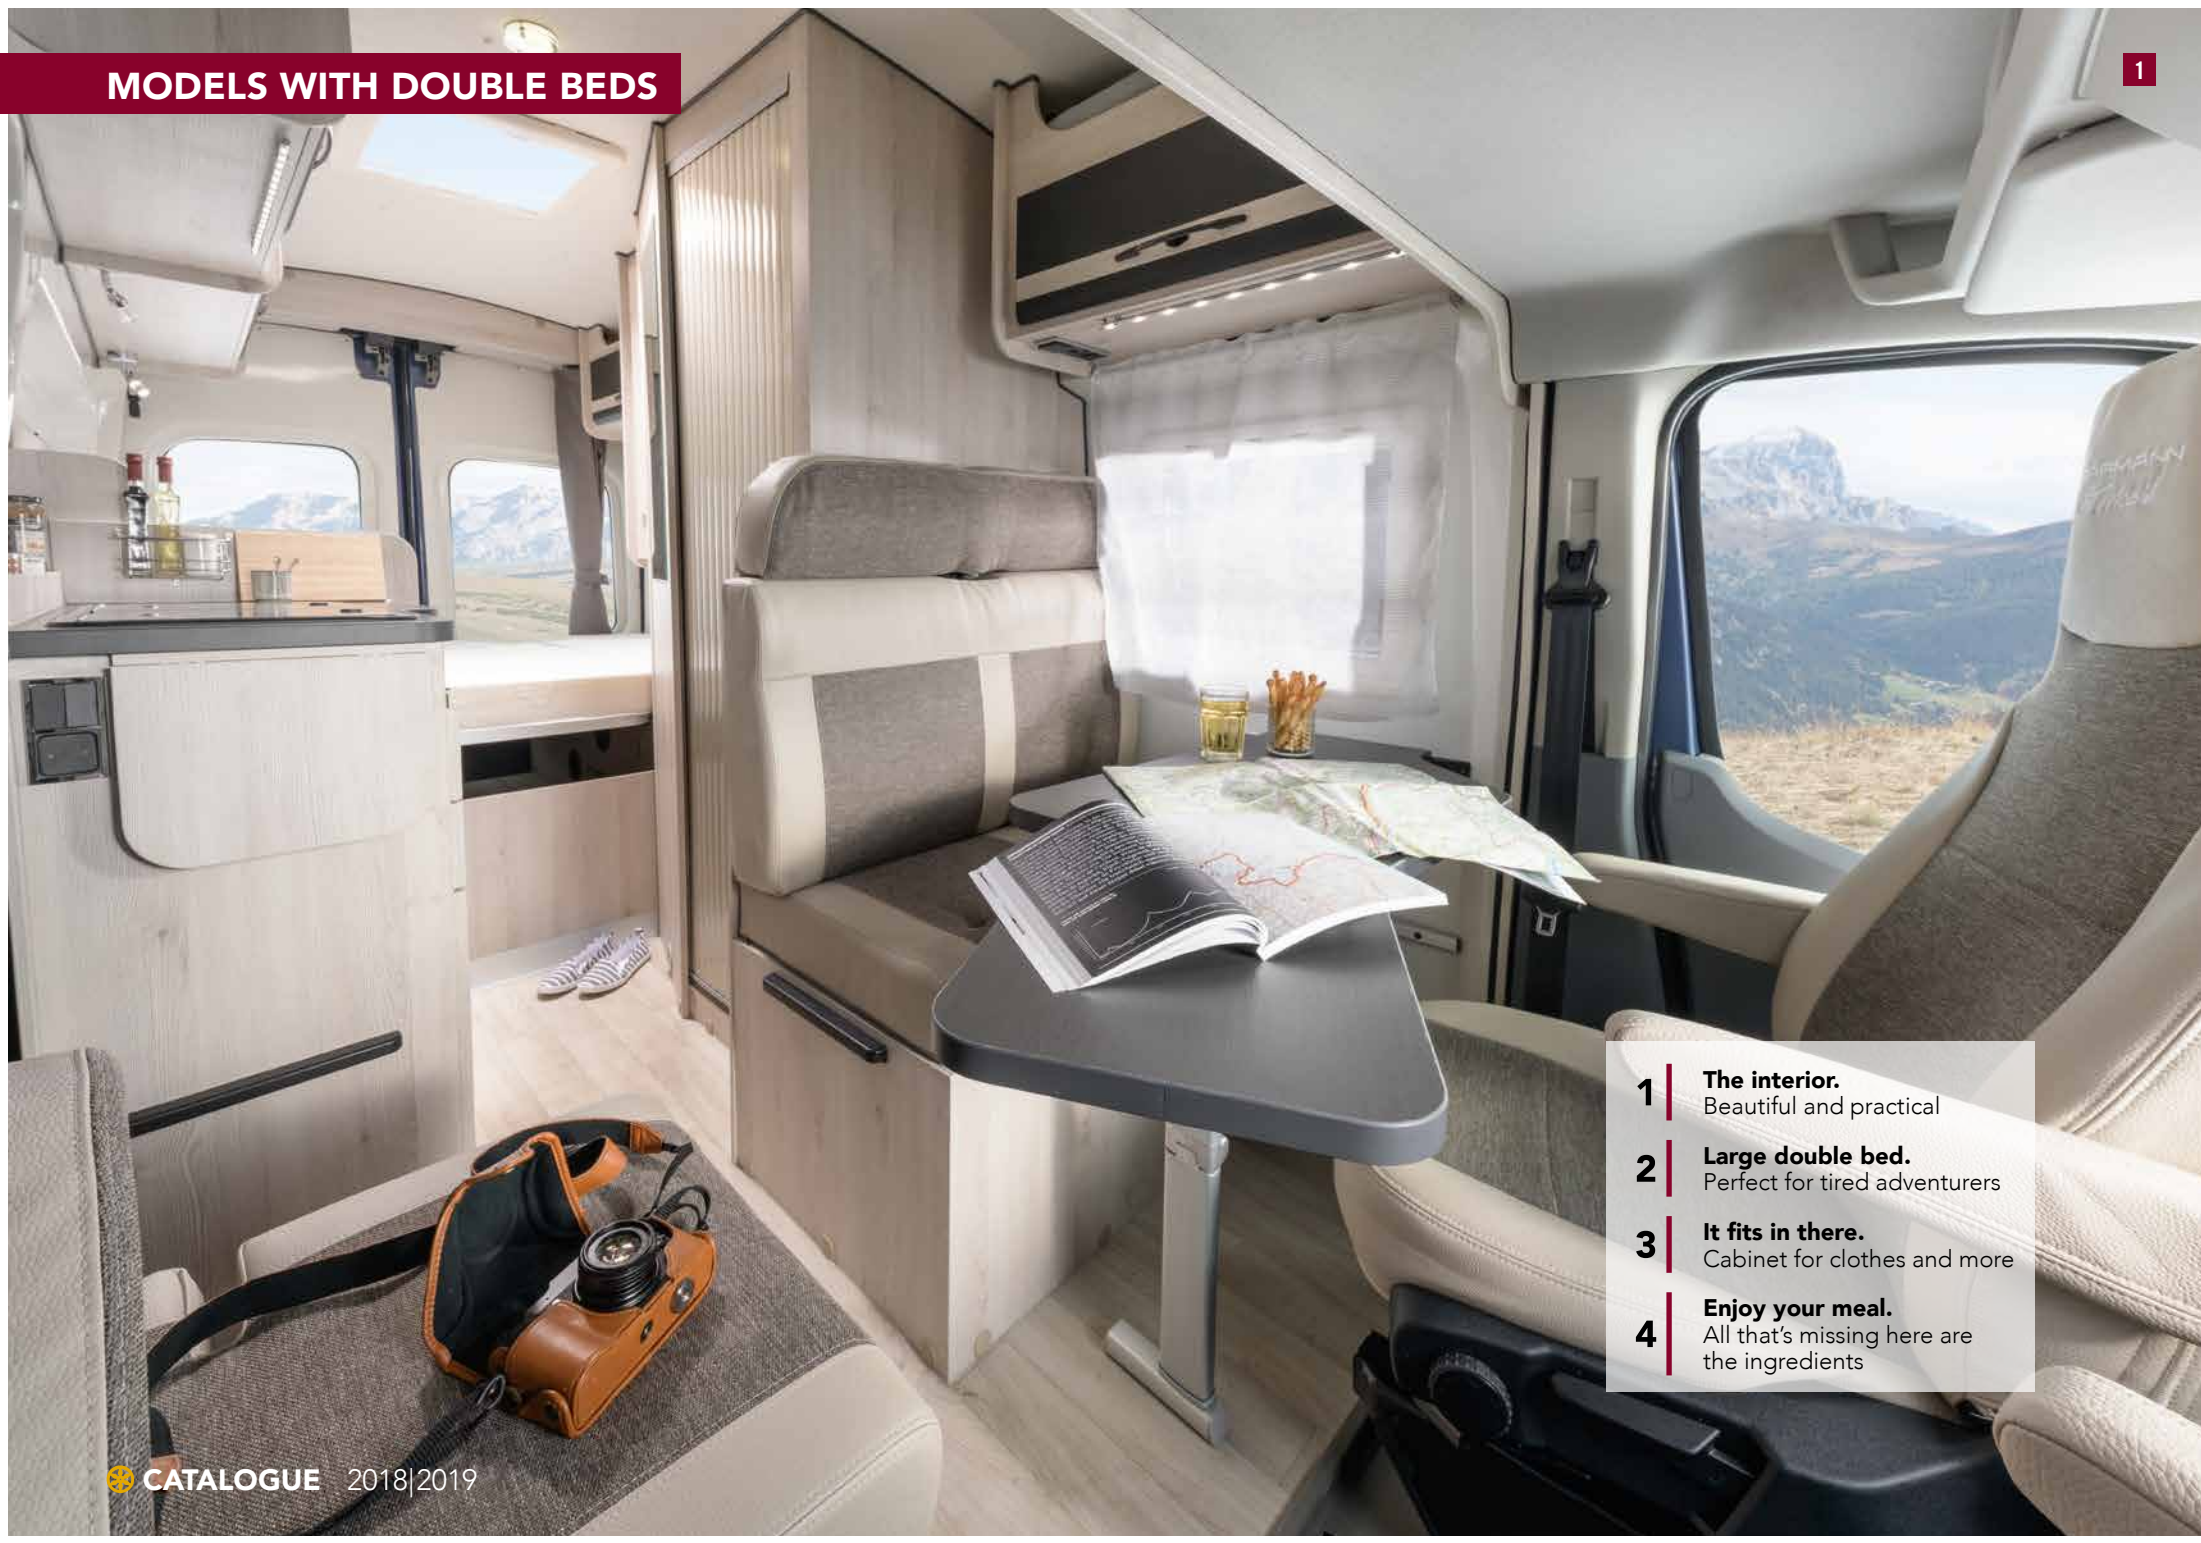

Where the road ends, the real adventure begins.

It is often the stony paths that lead to the most wonderful places. They are usually not even asphalted and can be hard to drive on with a normal motorhome. Too bad actually, but only for the others. You can simply continue driving with the **Dexter 560 4x4** and its indestructible all-wheel drive. Over gravel, sand, loose rock, snow, and whatever else lies on your route. The **Dexter 560 4x4** leads you safely and comfortably through difficult terrain and opens up many new ways to enjoy your holiday.

The generously sized double bed is also a real treat. This beautiful lounge area is located across the rear of the vehicle. You can therefore even take a different direction at night. After a good night's sleep, you can move mountains. And climb them as well. Just as you like.

All-wheel drive, slippery, gravel. Do you associate these words with comfort and upscale features? Probably not, but you could. After all, the **Dexter 560 4x4** combines the best of two worlds.

A cosy five-seater seating group, an 80-litre refrigerator, a toilet with shower and mountain of comfort await you in just under six metres length. At any time of the year. Thanks to efficient insulation and powerful gas heating, the **Dexter 560 4x4** is also an ideal base camp in winter. Before you continue your journey far from the beaten path.

**Whoever goes where others go will always be where others are.
This is not your thing. You like to take a different path and you'll be
rewarded for it.**

With wonderful experiences of nature, almost untouched landscapes and idyllic hiking trails. Out here you can let your thoughts run free or just think of nothing at all and listen to the chirping of the birds or the crackling of the branches. Before returning to your gleaming motorhome.

Under the covers with adventure

There are motorhomes. And then there are motorhomes that change your whole life. Like the Dexter.

Your holiday will never be the same with it because it lets you experience nature in a completely new way. And that's even before you leave. After all, the Dexter's light-coloured furniture with authentic wood grain creates a wonderfully natural flair. But despite this charming robustness, it is extremely comfortable in the Dexter. The double bed alone ensures this. It is also positioned transverse to the vehicle in this Dexter, thus providing a lot of extra space – even in the compact yet comfortable **Dexter 540** and especially in the larger models like the **560** and the **580**, which offer plenty of space to unfurl. You can enjoy this freedom year-round – the robust Dexter is prepared for any weather with its efficient insulation and high-performance gas heater. Skiing in the Pyrenees? We're ready to go.

Brighten up the holiday even more

The holiday will be beautiful

Of course, a motorhome should above all be reliable, safe and practical. But why shouldn't it also look extremely stylish?

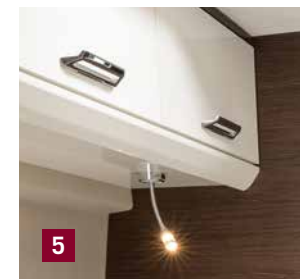

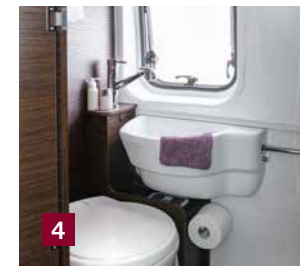

If you look at the **new Davis**, it is hard to imagine anything other than a beautiful holiday. This motorhome is a work of art with its emphatically bright interior, high-gloss surfaces, a leather-look wall covering and stylish ambient lighting. But also extremely practical. After all, the compact Davis not only provides room for impressive design but for everything else as well. A bathroom with a shower, a modern kitchen finish, a wide dinette window, a generous double bed, high-quality furnishings, plenty of storage space and still plenty of room to let loose. You decide how much. You have a lot in the **Davis 540** and even a bit more in the longer **Davis 590**.

Also nice: both Davis models can be used all year round. Elaborate insulation ensures that the cold stays outside and the heat stays inside.

Special highlights:

- ⊗ impressive interior design
- ⊗ quality furnishings
- ⊗ atmospheric LED lighting
- ⊗ movable reading lights

If you like the Davis, you'll like this even more. After all, this elegant motorhome can be furnished with even more stylish and luxurious features.

Everyone seems to think you have to make a lot of compromises in a motorhome? The Davis has everything one could ever wish for. And if there were any wishes left unfulfilled, then the **Davis Lifestyle Package** is available. It provides nothing less than a completely new sense of space. This is achieved, for example, using a white kitchen unit and additional ambient lighting.

This alone makes the interior appear larger, friendlier and, above all, more elegant. This style extends throughout. With fine chrome applications on the wall unit, a mineral kitchen worktop and indirect LED lighting in the kitchen and dining room. Style fills the entire room, which is made even larger with additional cleverly integrated storage compartments. Do you feel like camping on a grand scale?

Special highlights:

The big Dexters have a lot to offer. Here's just a tiny excerpt.

MODELS WITH LIFT BED

Fold here for space and comfort

Sometimes it doesn't take much to be happy. A weekend holiday and a cosy spot, for example.

Okay, a little sun would be nice too. And a fresh breeze, if it can be arranged. Oh, and most importantly, silence. But otherwise please don't bother. Anything else would just serve as a distraction from what matters. From the salty sea air, the gentle rocking of the waves and the ships passing slowly on the horizon. This is the perfect place to enjoy the harmony of the moment. And to think about where you want to spend a nice day tomorrow. But first, you can look forward to the night – the perfect sleeping place is waiting. A lift bed with a wonderful motorhome around it.

*Into the wilderness, into the water –
or what else do you have in mind?*

Just relax

Heavenly, like a lift bed. It takes up space only when you really need it.

The rest of the time, you have more storage space or free space – as you wish. And this is how our Dexters are equipped in other ways as well – according to your wishes. The compact **Dexter 550** leaves nothing to be desired with its naturally beautiful furniture in wooden look while offering an unbelievable amount of comfort. Is it bigger on the inside than on the outside? If you take a look at the spacious four-seat group with a sofa bed, the large corner kitchen and the convenient bathroom, you could almost think it's true. Especially as the other features are very extensive. The **Dexter 550** is a little space miracle, and this is mainly due to the retractable lift bed which makes your Dexter virtually two-storey. You can therefore relax upstairs while someone else reads a book in the comfortable seating group below. Or maybe a travel guide?

Special highlights:

- ⊗ only 5.42 metres long
- ⊗ electronically controlled lift bed
- ⊗ fully insulated GRP rooftop
- ⊗ spacious corner kitchen
- ⊗ large rear washroom
- ⊗ practical sofa bed

Enjoy your freedom along the way?

Higher, further, more relaxed

A lift bed in the front with an electronic control which provides a lot of space at night but which but doesn't take up any space during the day.

An indulgent bathroom with a separate shower in the back which extends across the entire interior width. And in between, optimum comfort. The **Dexter 595** is convincing throughout – and in any season. Due to the efficient insulation and the powerful gas heater, it is suitable even for your next ski holiday. Your friends are welcome to come along with plenty of room for additional passengers. The 140-litre AES drawer refrigerator and the large cabinet can also provide a breakfast buffet for everyone. How great such an individual holiday can be.

Great is also the key term for the **Dexter 555**, because the family vehicle could hardly be less extensively furnished. With up to five seats, six sleeping places, comfortable furnishings with a large lift bed, spacious bathroom and unlimited space, the **Dexter 555** has everything you need on the road with the whole family. This makes travelling really fun. Maybe even most of all for the driver. With air conditioning in the cab, cruise control, captain's chair seats and an engine up to 180 HP, the holiday can begin on the motorway.

Special highlights:

- ⊗ electronically controlled lift bed
- ⊗ sofa bed in the seating group
