

IL 730 EB | For space lovers

The IL 730 EB easily meets the demand for the comforts of a real bedroom. Especially comfortable bed access for the two low single beds, an adjacent rear washroom with separate shower and free access between the beds towards the front mean that this integrated section appears even more spacious when you walk in than the generous living area, with L-shaped sofa and L-shaped kitchen. Combined with the just 2.89 m high superstructure, it offers a spacious surprise that many people wouldn't expect.
