Constellation Range

All WildAx motorhomes have 2 main design features:

To be fully winterised, and as such are independently tested to ensure that we offer the maximum protection for usage in cold weather. The standardised test we use involves temperatures down to minus 20 deg C. This is achieved by ensuring the entire motorhome is fully insulated including the water tanks that have a 12v frost protection system installed. Our motorhomes all have the Truma iNet installed as standard enabling your Truma Combi to be controlled from an app on your phone!

To be wild camping ready. This is achieved in a number of ways. We use low power consumption parts where possible including LED lighting and 3 way fridges. All our water tanks are custom made to our designs giving a full 100 litre capacity for both fresh and waste water. Also as standard there is an underslung refillable LPG tank (20/30 litres). All our motorhomes use a 100 Ahr leisure battery to give an impressive 2-4 days off mains without engine start. We are also pre-wired for solar panel fitment as this is a very popular optional extra.

The Constellation model range is based on a very popular front lounge layout with large kitchen and washroom to the rear.

The XL version offers enhanced storage options and a longer kitchen area. We have 2 standard layouts over 2 lengths giving a mixture of 4 models in the range:

Constellation³ - 3 travel seats. Large permanent sofa. Bed size up to 6ft 4 long.

Constellation⁴ - 4 travel seats. Semi Permanent sofa. Bed sizes up to 6ft 4 long

Constellation³ XL - as above with longer kitchen, more storage and larger wardrobe.

Constellation⁴ XL - as above with longer kitchen, more storage and larger wardrobe.

Base Vehicle

Citroen Relay Euro 6.2, 2.2 Hdi 140 BHP, 6 speed manual. The Citroen Relay is a great quality vehicle giving more than enough power and very low emissions with the Euro 6 engine. Running costs are low with one of the best fuel economy figures on the market with figures reported in excess of 40 mpg by our customers.

Dimensions

Length = 5.99m/6.36m

Width = 2.05m (not incl. mirrors)

Height = 2.75m

GVW = 3500kg.

Payload depends on final spec (from circa 440kg)

The WildAx Story so far ...

Our decision to move closer to the motorway brought us to Elland. Over the years we have grown in size and production output, making a move necessary to our current 20,000 square foot factory in Elland in 2018.

All our motorhomes are built to an exacting standard and are compliant with all regulations. As members of the NCC we are rigorously assessed to these standards including random inspections.

In 2017 we also became part of the Rapido Group of companies making us part of one of the largest motorhome production groups in Europe. We are proud to produce our motorhomes completely in the UK and take great care to make a super high quality hand-made product. Our motorhomes are sold throughout the UK through a network of friendly agents.
