The New Alfa Giulietta is designed around you, the driver. Giving you total control.
FUEL YOUR INSTINCT

The New Alfa Giulietta. Prepare to be seduced.

Agility. Cutting-edge MacPherson front suspension and MultiLink rear suspension, ideal for handling corners with unparalleled grip and superior driving comfort.

Fun. Dual Pinion Active Steering for an exhilarating driving experience.

Flexibility. 6-speed manual or automatic transmission with the ALFA TCT Twin Clutch Transmission, for more efficient and faster shifting, with a continuous torque output.

Technology and sportiness. Alfa™ D.N.A. is the exclusive driving mode selector which perfectly adapts the vehicle’s performance to suit both the driver’s style and road conditions. There is a choice of three modes: DYNAMIC to optimise performance, NATURAL to optimise fuel consumption and ALL-WEATHER for tackling bad weather and low grip conditions.
The New Alfa Giulietta is the true embodiment of Alfa Romeo design and beauty. The new honeycomb grille gives the front of the car a sporty and distinctive look, resonating strength, balance and harmony. The unique and unmistakable rear lights - next to the New Alfa Giulietta logo - give it a modern and bold, contemporary twist, and the headlights with their carbon-effect, complete the look.

**IT TAKES ONLY ONE GLANCE**
TAILORED AROUND YOU

Perfect ergonomics and Italian style: the interior of the New Alfa Giulietta is tailored just for you. The ultimate in comfort and beauty, a range of upholstery is on offer. Choose from fabric seats, fabric and Alcantara®, leather and Alcantara® or upgrade to full sports leather.

New brushed matte black inserts for the dashboard door panels and centre console complete the styling.
A cutting-edge range of Turbo-charged Petrol and Turbo Diesel engines, combines maximum performance with reduced fuel consumption and respect for the environment.

The New Alfa Giulietta now comes with the new Diesel 1.6 120 hp engine with ALFA TCT transmission, combining the advantages of a Turbo Diesel engine with the comfort of an automatic transmission and the speed of a dual clutch transmission. Efficiency and driving pleasure.
Driving an Alfa Romeo is as much about experiencing the journey as it is arriving at your destination. The New Alfa Giulietta has the innovative Uconnect™ touch-screen multimedia system that integrates all the vehicle’s technological functions on a single device. You can operate the colour touchscreen with the touch of your finger or simply your voice, thanks to its voice recognition. The Uconnect™ 5” colour touchscreen allows you to manage the DAB radio, media player (via USB or Aux-in) and phone (Bluetooth® hands free with SMS reader). The Uconnect™ 6.5” Radio Nav offers the additional features of a GPS navigation system with preloaded 3D maps and SD card reader. Both systems feature a host of LIVE services that connect to your smartphone. A range of Apps can be accessed, from Social Media networks, music streaming and entertainment to Apps reporting on the performance and efficiency of your car.
