

Reg Number

HN64EBJ

Inspection Date: 14/11/23

GT Automotive has fully inspected this vehicle, covering:

Body Exterior Fittings

Exterior fittings such as the registration plate, bonnet hinges, bonnet catch, door locks and the windscreen

Interior Fittings

Air vents, boot and tailgate operation, mirrors, seatbelts and buckles

Engine Compartment

Engine noise at idle and on road test, levels for brake fluid, engine oil, power steering (when applicable) and coolant. We also check for excessive smoke, hoses, turbo noise and the engine mounts

Electric Systems

We check the electrical systems such as the exterior lights, radio operation, air conditioning operation (temp checked), 12v battery condition, window and wiper operations, number plate lights

Suspension + Steering inc Underbody

We check the following items for play and damage in the following parts. The anti roll bars, shock absorbers, springs, ball joints, the condition of the subframe underneath, wheel bearings

Clutch and gearbox/final drive

Driveshafts, the clutch operation, CV joints and check for leaks

Fuel System

Check for visible leaks on the system and the fuel filter housing

Brakes Wheels and Tyres

We check the brake pads and discs for wear, including excessive corrosion. We check that all tyres are above the legal limit (1.6mm) and replace if 2mm or below

Road Test

Warning Lights

We check that no warning lights are on the dash before, during and after test drives
